Dog of the Month – Chihuahua

The chihuahua is a breed of dog native to Mexico that traces its lineage back thousands of years to pre-Columbian times. These adorable pups are named after the Mexican state of the same name. Chihuahuas are small, peppy dogs known for their vibrant personalities. In fact, they are one of the smallest breeds. They have large, expressive eyes and sweet faces. One of their defining features is an apple-shaped head. Chihuahuas come in a variety of colors, including tan, white, black, fawn, chocolate, red, and cream. Some even have coats in blue or lilac!

These charming dogs make popular pets, beloved for their unique spunk and playful nature. Affectionately known as purse dogs at under 10 inches long and just four to six pounds, they can actually be carried around in a handbag. They tend to live between 12 and 15 years, but have been known to survive up to 20 years.

Flower – Lily of the Valley

The flower for the month of May is the lily of the valley. It is prized for its sweet fragrance. It's a common folk belief that the scent of this inedible flower in the spring air is the signal for nightingales to begin their seasonal singing and choosing of a mate. Legend has it that King Charles IX of France was given this flower on May 1, 1561. He reportedly then gave the gift of lilies of the valley to all the ladies of his court each year on May 1.

Birthstone – Emerald

The stunning green emerald is the birthstone for May. It is also the anniversary gemstone for the 20th year of marriage. This beautiful gemstone is primarily mined in the Middle East and South America. The ancient Romans associated emeralds with fertility and rebirth. They dedicated the stone to Venus, the goddess of love and beauty. In the Middle Ages, it was believed that emeralds held the power to foretell the future and cure epilepsy and fever. Today, it is often thought to symbolize wisdom, growth, patience, and spring.

May Sports History Firsts

Many exciting firsts in sports history have happened in May. Here are just a few.

1742: First indoor swimming pool opened in London

1873: First Preakness Stakes thoroughbred horse race held

May Brain Teaser

Question:

What day in May has the most children?

Answer:

Mother's Day

May Zodiacs

Taurus (the Bull)
May 1–20

Gemini (the Twins)
May 21–31

May is the fifth month of the year and one of seven months with 31 days. It is believed to get its name from the Roman goddess of spring, fertility, abundance, and growth, Maia Majesta. In Greek mythology, Maia was the eldest and most beautiful of Atlas' seven daughters. She adopted Zeus' son Callisto, who was posthumously sent to the sky to become Ursa Major. This constellation includes the Big Dipper, which shines brightly in the sky on clear May nights.
